Art Unit: 1625

The finality of the Previous Office Action has been withdrawn. The application is reopened due to a new ground of rejection.

The Status of Claims:

Claims 1-16 have been canceled.

Claims 17-24 are pending.

Claims 17-20 have been rejected.

Claims 21-24 have been objected.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 17, the phrases “general formula” and “hydrogenated-active compounds” are recited.

The term “general” is vague and indefinite as to how general the formula is. The term “general” is without further clarification by the specification. Therefore, an appropriate correction is required.

The term “hydrogenated-active compounds” is vague and indefinite. The expression does not specify what types of hydrogenated-active compounds are in the

claim, nor what kind of its formula is for the hydrogenated-active compounds since there are many hydrogenated-active compounds available in the specification.

Therefore, an appropriate correction is required.

In claims 18-20, the phrases " crosslinking with polyisocyanates oligourethanes comprising" , and " crosslinking oligourethane comprising" are recited.

The expression of the term " comprising" is vague and confusing. The meaning of " crosslinking with polyisocyanates oligourethanes comprising" is that there are some additional components besides " crosslinking with polyisocyanates oligourethanes ." Furthermore, the meaning of " crosslinking oligourethane comprising" is that there are some additional components besides " crosslinking oligourethane ." Therefore, an appropriate correction is required.

Claims 21-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
